RE: Compliance with the World Anti-Doping Code

Dear Prof. Plavšić,

In light of the information recently provided by Dr. Manojlović and following the correspondence sent on 16 November 2011 by Dr. Mateša, we are pleased to inform you that we now consider the Croatian Institute for Toxicology and Anti-doping in Sport's program to be in line with the World Anti-Doping Code.

We congratulate you for your efforts and we strongly encourage the Croatian Institute for Toxicology and Anti-doping in Sport to further develop its anti-doping program as discussed. We would be pleased to provide guidance and assistance at any stage in this process if needed.

Thank you for your commitment to the fight against doping in sport.

Sincerely,

Rune Andersen

Subject: Compliance with the 2009 World Anti-Doping Code

Dear Prof. dr. Plavšić,

We would like to thank you for submitting a copy of the Croatian Institute for Toxicology and Anti-doping in Sport ("CITA")'s anti-doping rules and giving us the opportunity to provide you with our comments. We confirm that you have successfully incorporated all of the mandatory articles of the World Anti-Doping Code (the "Code") into these rules.

This correspondence therefore constitutes your assurance that the Croatian Institute for Toxicology and Anti-doping in Sport's anti-doping rules seem to be in line with the Code.

After this important step, it is fundamental that the Croatian Institute for Toxicology and Anti-doping in Sport enforce its regulations in accordance with the Code. WADA may suggest some amendments to the rules while monitoring their enforcement, if need be. If you require any assistance in enforcing your anti-doping regulations or programs, please do not hesitate to contact us at Emiliano.Simonelli@wada-ama.org or by fax +1 514 904 4450.

However, notwithstanding the aforementioned, we kindly request that you address the following issues:

- Please insert a title page with specific reference to CITA's Anti-Doping Rules.
- In addition, we would kindly ask that you accept all of the changes that have been made to the text of your rules. In order to do so, please right click on the text that appears in red, and select "Accept Insertion".

Once these changes have been made, kindly provide us with the revised copy of your rules. If you require any assistance, please do not hesitate to contact us.
